Norwegian Citizen Panel Wave 1, 2013

Overview	
Identification	NSD2065
Version	Production Date: 2014-02-26 Notes Original data from University of Bergen are documented and prepared, first NSD-version.
Abstract The Norwegian Citizen Panel is a platform for internet surveys of public opinion in important areas of society and politics in Norway. Participants are randomly recruited from the Norwegian population register, and they are encouraged to participate over time. The panel was fielded for the first time in the fall of 2013 and the survey is carried out about twice a year. The University of Bergen owns and is responsible for the Citizen Panel. The company Ideas 2 Evidence recruits respondents, produces the survey, and provides documentation of the data. Data is stored and shared by the Norwegian Social Science Data services (NSD). The Norwegian Citizen Panel welcomes research proposals for survey content. More information about calls and other updates is available at www.medborger.uib.no Data is available for research by downloading.	
Kind of Data	Survey data
Unit of Analysis	Individual

Scope & Coverage	
Keywords	Attitudes, Political attitudes, Social attitudes, Political participation, Citizen participation, Constituents, Party identification, Political allegiance, Climate, Climatic changes, Interethnic relations, Intergroup relations, Social behaviour, Environment, Environmental changes, Climatic changes, Global warming, Politics, Political action, Political behaviour, Immigration policy, Environmental policy, Political, social and economic issues, Safety and security measures, Protection from terrorism, Security services, Panel data
Topics	Mass political behaviour, attitudes/opinion, Politics, Environmental degradation/pollution and environmental protection, Social behaviour and attitudes
Countries	Norway
Geographic Coverage Country	
Universe Norwegian citizens above the age of 18.

Sampling

Sampling Procedure

Gross sample: 24 942 persons

Net sample: 4905 persons

Response rate: 19,7 %

Based on international literature the panel recruitment process was expected to have a success rate of approximately 14 percent. In order to reach our minimum target of 3 500 respondents we therefore had to draw a gross sample of 25 000 individuals.

The sample was drawn from the Norwegian National Population Registry. This register includes everyone born in Norway as well as former and current inhabitants. The Norwegian Tax Administration is responsible for the register, but the administration is partly outsourced to the private IT-company Evry. Evry drew the sample on behalf of the Citizen Panel after the necessary permissions were acquired from the Norwegian Tax Administration.

25 000 individuals over the age of 18 were randomly drawn from the register. The extracted data was a) last name, b) first name, c) address, d) gender, and e) age. The sample excluded people with no current home address in Norway.

Furthermore, all individuals over the age of 95 were excluded from the sample. This amounted to 58 persons, thus leaving a net sample of 24 942 individuals before the recruitment process started.

Data Collection Mode:

Panel members were recruited per post in two steps.

First, letters were sent to everyone in the sample. The letters contained the following information; a) a description of the project, b) the Citizen Panel's policy on privacy and measures taken to protect the anonymity of the participants, c) the time-frame of the project, d) the participants' rights to opt out of the panel at any time in the future, e) contact information for the people responsible for the project, f) a unique log-in id and the web address to the panel's web site and g) the estimated time required to complete the survey (20 minutes).

In order to maximize the response rate, an incentive in the form of a travel gift card was included in the project. The value of the gift card was 25 000 NOK. To enter the lottery respondents were required to join the panel and provide their e-mail addresses. Respondents were asked to register on the panel's web site and log into the survey using the unique id-code provided in their personal letter. Information on the lottery was included in all correspondence with respondents.

The letter was posted on the 6th of November 2013.

A reminder post card was sent on the 22nd of November 2013 to those respondents who a) had not logged into the survey, or b) had neither completed the survey nor provided their e-mail address. Respondents were encouraged to join the panel, with reference to the letter sent two weeks prior. The unique log-in id provided in the original letter was also included in the post card. A reminder e-mail was sent on the 25th of November to those respondents who had provided their e-mail addresses, but had not yet completed the survey.

Weighting

To compensate for the observed bias, a set of weights has been calculated. The weights equal the relation between a given strata in the population and the total population, divided by the relation between a given strata in the net sample and the total net sample. This procedure returns values around 1, but above 0. Respondents who are underrepresented will receive a weight above 1 and respondents who are overrepresented a weight below 1. The weights of the different strata are listed in the documentation report (table 8 in the appendix).

When calculating the weights, the information regarding the respondent's geographical location, gender and age are based on registry data. These attributes were included in the sample file we received from the Norwegian Population Register. Information regarding the level of education is provided by the respondents when answering the questionnaire. Approximately 9 percent of the net sample did not answer this question. Because of this, two different weights have been calculated:

- Weight 1 based on demographic variables (age, gender and geography)
- Weight 2 combining the demographic variables with education. Respondents with missing data on the education variable are only weighted on demography (the education component of the weight is set to 1 in these cases).

When applied, both weights will provide a weighted N equal to the number of cases in the dataset. We will strongly recommend using weight 2 in any statistical analysis, as this weight provides the most accurate compensation for the various sources of bias in the net sample. An illustration of this is provided in table 5 which shows the effect of weight 2 on the distribution of self-reported level of education in the net sample:

47	k16_2	Strong opinions, also regarding new issues	discrete	numeric-1.0	4905	0	I have strong opinions, either positive or negative, including on issues that are new to me
48	dv30_1	Statement: lower taxes even if it means cuts to welfare	discrete	numeric-1.0	4905	0	To which extent do you agree or disagree with the following statements: ... Tax rates should be lowered, even if it leads to cutbacks in the welfare state.
49	dv30_2	Statement: allow commercialized private schools	discrete	numeric-1.0	4905	0	To which extent do you agree or disagree with the following statements: ... Commercial private schools should be permitted.
50	dv30_3	Statement: public services cheaper and better if left to private actors	discrete	numeric-1.0	4905	0	To which extent do you agree or disagree with the following statements? ... Many public services could be carried out both better and cheaper if they were left to private parties.

Group Climate change

#	Name	Label	Type	Format	Valid	Invalid	Question
1	km1	Heard the argument: Climate change a threat, but we should continue to extract oil as usual	discrete	numeric-1.0	4905	0	Climate change is a very serious threat, and a lot more must be done to prevent it. Norway should nevertheless continue to produce as much oil as we currently do, because the world needs energy.
2	km2	Heard the argument: Climate change a threat and we should reduce oil extraction	discrete	numeric-1.0	4905	0	Climate change is a very serious threat, and a lot more must be done to prevent it. This means that Norway should produce less oil than we currently do, because a large share of the world's fossil fuel must remain unused.
3	km3	Heard the argument: Climate change is not a threat and we should continue to extract oil as usual	discrete	numeric-1.0	4905	0	Climate change is not a serious threat, and too much is being done to prevent it. This means that Norway should continue to produce as much oil as we currently do, because the world needs energy.
4	km36	Concerned about climate change	discrete	numeric-1.0	4905	0	How concerned are you about climate change?
5	km37	Agreement with statement	discrete	numeric-1.0	4905	0	Which of the below statements do you most agree with?
6	km4	Statement fits view on climate change	discrete	numeric-1.0	4905	0	Based on what you know, which of the following statements best describes your view on climate change?
7	km35	How many share your view on climate change	discrete	numeric-1.0	4905	0	The last question you answered was about your view on climate change. Which proportion of the Norwegian population do you believe shares your views on the issue?

1	km17	If nothing is done about climate change weather will be more extreme	discrete	numeric-1.0	4905	0	If nothing is done to prevent it, do you believe global warming will lead to more harmful extreme weather over the next 100 years, or do you believe global warming will not lead to this?

Group Message ambiguity and climate change perception

Kjersti Fløttum

#	Name	Label	Type	Format	Valid	Invalid	Question
1	km1	Heard the argument: Climate change a threat, but we should continue to extract oil as usual	discrete	numeric-1.0	4905	0	Climate change is a very serious threat, and a lot more must be done to prevent it. Norway should nevertheless continue to produce as much oil as we currently do, because the world needs energy.
2	km2	Heard the argument: Climate change a threat and we should reduce oil extraction	discrete	numeric-1.0	4905	0	Climate change is a very serious threat, and a lot more must be done to prevent it. This means that Norway should produce less oil than we currently do, because a large share of the world's fossil fuel must remain unused.
3	km3	Heard the argument: Climate change is not a threat and we should continue to extract oil as usual	discrete	numeric-1.0	4905	0	Climate change is a not a serious threat, and too much is being done to prevent it. This means that Norway should continue to produce as much oil as we currently do, because the world needs energy.
4	km36	Concerned about climate change	discrete	numeric-1.0	4905	0	How concerned are you about climate change?
5	km4	Statement fits view on climate change	discrete	numeric-1.0	4905	0	Based on what you know, which of the following statements best describes your view on climate change?

Variables Description

Dataset contains 328 variable(s)

File : NSD2065			
# responseid: responseid			
Information	[Type= continuous] [Format=numeric] [Range= 4-5166] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	responseid		
# u: Randomizes the respondents into two groups			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Randomizes the respondents into two groups. The two groups are asked questions common to them both, and questions unique to the group.		
Value	Label	Cases	Percentage
1	u1		
2	u2		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# k1: Interest in politics			
Information	[Type= discrete] [Format=numeric] [Range= 1-97] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	In general, how interested are you in politics?		
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness		
Value	Label	Cases	Percentage
1	Very Interested		
2	Interested		
3	Somewhat interested		
4	Not interested		
5	Not interested at all		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# k2: Voted in the elections			
Information	[Type= discrete] [Format=numeric] [Range= 1-97] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Did you vote at the parliamentary elections this autumn?		
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness		
Value	Label	Cases	Percentage
1	Yes		
2	No		
3	Don't remember		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# k3: Voted for following party			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Which party did you vote for at the parliamentary elections?		
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness		

File : NSD2065

k3: Voted for following party

Value	Label	Cases	Percentage
1	The Christian Democratic Party		
2	The Conservative Party		
3	The Progress Party		
4	The Liberal Party		
5	The Socialist Left Party		
6	The Centre Party		
7	The Green Party		
8	The Labour Party		
9	Red		
10	Other:		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

k3_10_other: Text: Voted for following party

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=66 /-] [Invalid=0 /-]
Literal question	Text: Which party did you vote for at the parliamentary elections?
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

k4: Time of choosing party

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	When did you decide to vote for the party or list you chose?
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

Value	Label	Cases	Percentage
1	Before the election campaign		
2	During the election campaign		
3	3 = "On the day of the election"		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

k5_1: Reasons not to vote in elections: too small differences between parties

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	There may be many reasons for people not voting at parliamentary elections. Indicate how important the following reasons were for you:
Literal question	Reasons not to vote in elections: ... The differences between the parties are too minor
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

Value	Label	Cases	Percentage
1	Very important		

File : NSD2065

k5_1: Reasons not to vote in elections: too small differences between parties

Value	Label	Cases	Percentage
2	Important		
3	Somewhat important		
4	Not very important		
5	Not important at all		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

k5_2: Reasons not to vote in elections: not committed to important issues

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	There may be many reasons for people not voting at parliamentary elections. Indicate how important the following reasons were for you:
Literal question	Reasons not to vote in elections: ... I am not committed to any important issues
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

Value	Label	Cases	Percentage
1	Very important		
2	Important		
3	Somewhat important		
4	Not very important		
5	Not important at all		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

k5_3: Reasons not to vote in elections: not familiar with issues

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	There may be many reasons for people not voting at parliamentary elections. Indicate how important the following reasons were for you:
Literal question	Reasons not to vote in elections: ... I am not familiar enough with what the parties represent
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

Value	Label	Cases	Percentage
1	Very important		
2	Important		
3	Somewhat important		
4	Not very important		
5	Not important at all		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File : NSD2065**# k5_4: Reasons not to vote in elections: lacking confidence in politicians**

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	There may be many reasons for people not voting at parliamentary elections. Indicate how important the following reasons were for you:
Literal question	Reasons not to vote in elections: ... I lack confidence in politicians
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

Value	Label	Cases	Percentage
1	Very important		
2	Important		
3	Somewhat important		
4	Not very important		
5	Not important at all		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

k5_5: Reasons not to vote in elections: lack of time

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	There may be many reasons for people not voting at parliamentary elections. Indicate how important the following reasons were for you:
Literal question	Reasons not to vote in elections: ... I didn't have the time or opportunity
Concepts	Political attitudes, Party identification, Political allegiance, Political interest, Political awareness

Value	Label	Cases	Percentage
1	Very important		
2	Important		
3	Somewhat important

<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# ran1: Randomizes independently from U			
Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]		
Statistics [NW/ W]	[Valid=4780 /-] [Invalid=125 /-]		
Literal question	Randomizes into three groups and selects one of the following questions: KM1, KM2, KM3		
# km1: Heard the argument: Climate change a threat, but we should continue to extract oil as usual			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Have you heard or read the following statement?		
Literal question	Climate change is a very serious threat, and a lot more must be done to prevent it. Norway should nevertheless continue to produce as much oil as we currently do, because the world needs energy.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		

# km1: Heard the argument: Climate change a threat, but we should continue to extract oil as usual			
Value	Label	Cases	Percentage
1	Yes, I have heard or read this.		
2	No, I have not heard or read this		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km2: Heard the argument: Climate change a threat and we should reduce oil extraction			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Have you heard or read the following statement?		
Literal question	Climate change is a very serious threat, and a lot more must be done to prevent it. This means that Norway should produce less oil than we currently do, because a large share of the world's fossil fuel must remain unused.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Yes, I have heard or read this.		
2	No, I have not heard or read this		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km3: Heard the argument: Climate change is not a threat and we should continue to extract oil as usual			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Have you heard or read the following statement?		
Literal question	Climate change is a not a serious threat, and too much is being done to prevent it. This means that Norway should continue to produce as much oil as we currently do, because the world needs energy.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Yes, I have heard or read this.		
2	No, I have not heard or read this		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km36: Concerned about climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-97] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How concerned are you about climate change?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very concerned		
2	Concerned		
3	Somewhat concerned		
4	Not particularly concerned		
5	Not concerned		

# km36: Concerned about climate change			
Value	Label	Cases	Percentage
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km37: Agreement with statement			
Information	[Type= discrete] [Format=numeric] [Range= 1-97] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Which of the below statements do you most agree with?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Norway should continue to produce as much oil as we currently do		
2	Norway should produce less oil than we currently do		
3	Norway should produce more oil than we currently do		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km4: Statement fits view on climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-97] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Based on what you know, which of the following statements best describes your view on climate change?		
Post-question	Choose one option.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	I believe that the climate is not changing.		
2	I don't know whether the climate is changing or not.		
3	I believe that the climate is changing, but that it has little to do with human action		
4	I believe that the climate is changing, and that it to a large extent is due to human action		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km35: How many share your view on climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	The last question you answered was about your view on climate change. Which proportion of the Norwegian population do you believe shares your views on the issue?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	All, or nearly all		
2	Many (more than half)		
3	Around half		
4	Some (fewer than half)		
5	None, or nearly none		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			

# ran2: Randomizes independently from U			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=4775 /-] [Invalid=130 /-]		
Literal question	Randomizes into two groups and selects one of the following questions: KM5 or KM6		
Value	Label	Cases	Percentage
1	r1		
2	r2		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km5: How serious is climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How serious a threat is climate change overall?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very serious		
2	Serious		
3	Somewhat serious		
4	Not very serious		
5	Not a threat		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km6: Climate change is serious to me personally			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How serious a threat is climate change to you personally?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very serious		
2	Serious		
3	Somewhat serious		
4	Not very serious		
5	Not a threat		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km7: Possible to do something about climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-97] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Let's assume that climate change may become a major threat to the world in the future if no action is taken. To which extent do you believe that it is possible to do anything to prevent harmful climate changes?		
Post-question	Select the statement that is closest to your view:		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		

km7: Possible to do something about climate change

Value	Label	Cases	Percentage
1	It is impossible to do anything to prevent harmful climate change		
2	It is possible, but very difficult to do something to prevent harmful climate change		
3	It is possible and completely realistic to do something to prevent harmful climate change		
4	It is easy to prevent harmful climate change.		
97	No answer		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ran3sel_1: Randomizes if U=1: selects KM13_1

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]

Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]
Statistics [NW/ W]	[Valid=1175 /-] [Invalid=3730 /-]
Literal question	Randomizes if U=1: selects KM13_8

# ran3sel_9: Randomizes if U=1: selects KM13_9			
Information	[Type= discrete] [Format=numeric] [Range= 1-1] [Missing=*]		
Statistics [NW/ W]	[Valid=2400 /-] [Invalid=2505 /-]		
Literal question	Randomizes if U=1: selects KM13_9		
# km13_1: Measure: Tighten rules on CO2 emissions by qutoa reductions			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Tighten the rules for how much CO2 industry in Norway and Europe may discharge by cutting the total number of quotas these may use.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km13_2: Measure: Tighten rules on CO2 emissions by limiting amount			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Tighten the rules for how much CO2 industry in Norway and Europe may discharge overall.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			

# km13_3: Measure: Capture and store CO2			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Strengthen focus on capture and storage of CO2 beneath the seabed or underground.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km13_4: Measure: Capture and store CO2, like on Mognstad			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Strengthen focus on capture and storage of CO2 beneath the seabed or underground, such as the so-called “mission to the moon” project at Mognstad		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km13_5: Measure: Reduce tax incentives regarding oilfield exploration			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		

# km13_5: Measure: Reduce tax incentives regarding oilfield exploration			
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Reduce tax incentives for oil exploration on the Norwegian continental shelf.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km13_6: Measure: Tighten tax regulation regarding oilfield exploration			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Tighten the tax regulations for oil exploration on the Norwegian continental shelf.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive

# km13_7: Measure: Prevent harmful effects of storms and precipitation			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here?		

# km13_7: Measure: Prevent harmful effects of storms and precipitation			
	... Strengthen efforts to prevent the harmful effects of storms and precipitation.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km13_8: Measure: Prevent harmful effects of storms and precipitation, even at the cost of other issues			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Strengthen efforts to prevent the harmful effects of storms and precipitation, even if this is at the cost of other important causes.		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km13_9: Measure: Change the climate by blocking the sunlight			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	We would now like to ask your opinion on certain measures that have been proposed to reduce climate change. Many experts believe that the measures mentioned below will work. However, there may be disagreement on whether these are good measures to implement.		
Literal question	How positive or negative are you towards the measures mentioned here? ... Attempt to alter the weather and climate by e.g. launching sulphur particles that block sunlight		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		

km13_9: Measure: Change the climate by blocking the sunlight

Value	Label	Cases	Percentage
1	Very positive		
2	Positive		
3	Somewhat positive		
4	Neither positive nor negative		
5	Somewhat negative		
6	Negative		
7	Very negative		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

km17: If nothing is done about climate change weather will be more extreme

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	If nothing is done to prevent it, do you believe global warming will lead to more harmful extreme weather over the next 100 years, or do you believe global warming will not lead to this?
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes

Value	Label	Cases	Percentage
1	Global warming will lead to more harmful extreme weather		
2	Global warming will not lead to more harmful extreme weather		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

km20: Moral obligation to prevent climate change

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	To which degree do you view it as a moral duty for individuals to contribute to prevent climate change?
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes

Value	Label	Cases	Percentage
1	To a very great degree		
2	To a great degree		
3	To some degree		
4	To a small degree		
5	Not at all		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

km22: Knowledge about climate change

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	In your opinion, how good is your knowledge on climate change?
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes

km22: Knowledge about climate change

Value	Label	Cases	Percentage
1	Very good knowledge		
2	Good knowledge		
3	Some knowledge		
4	Little knowledge		
5	No knowledge		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

# km22k: Comment: Knowledge about climate change [anonymised]			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=0 /-] [Invalid=0 /-]		
Pre-question	[anonymised: Data withheld for the sake of anonymity]		
Literal question	In your opinion, how good is your knowledge on climate change? If you have any comments to the question, you may enter them here:		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
# km23: Discussion on climate change is characterized by conflict and disagreement			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	To which degree do you think discussion concerning climate change is characterized by conflict and disagreement?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	To a very great degree		
2	To a great degree		
3	To some degree		
4	To a small degree		
5	Not at all		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km26: Diversity of opinion on climate change in the media			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	In your opinion, how great is the diversity in opinion on climate change that emerges in the media?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Very great diversity		
2	Great diversity		
3	Some diversity		
4	Little diversity		
5	No diversity at all		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# ran4: Randomiserer dersom U=1			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=2389 /-] [Invalid=2516 /-]		
Literal question	Randomizes if U=1 into two groups and selects one of the following questions: KM27 or KM28		
# km27: Scientists agree on climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	To which degree do you have the impression that scientists agree on climate change?		

# km27: Scientists agree on climate change			
Concepts		Environmental changes, Climatic changes, Global warming, Attitudes	
Value	Label	Cases	Percentage
1	To a very great degree		
2	To a great degree		
3	To some degree		
4	To a small degree		
5	Not at all		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km28_2_1: Proportion of scientist that agree on climate change			
Information		[Type= discrete] [Format=numeric] [Range= 0-999] [Missing=*]	
Statistics [NW/ W]		[Valid=4905 /-] [Invalid=0 /-]	
Literal question		In your opinion, which proportion of climate scientists agree that global warming is a direct consequence of humans using coal, oil and gas?	
Interviewer's instructions		Please pick a number between 0% and 100% below.	
Concepts		Environmental changes, Climatic changes, Global warming, Attitudes	
Value	Label	Cases	Percentage
0	0 %		
10	10		
20	20		
30	30		
40	40		
50	50		
60	60		
70	70		
80	80

100	100 %		
998	Not asked		
999	No response		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km28k: Comment: Proportion of scientist that agree on climate change [anonymised]			
Information		[Type= discrete] [Format=character] [Missing=*]	
Statistics [NW/ W]		[Valid=0 /-] [Invalid=0 /-]	
Pre-question		[anonymised: Data withheld for the sake of anonymity]	
Literal question		In your opinion, which proportion of climate scientists agree that global warming is a direct consequence of humans using coal, oil and gas? If you have comments to the question, you may enter them here:	
Concepts		Environmental changes, Climatic changes, Global warming, Attitudes	
# ran5: Randomizes if U=1			
Information		[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]	
Statistics [NW/ W]		[Valid=2387 /-] [Invalid=2518 /-]	

# ran5: Randomizes if U=1			
Literal question	Randomizes if U=1 into two groups and selects one of the following questions: KM29 or KM30		
# km29: Norway committed through international agreements to cut emissions			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	As you may know, government leaders from all over the world met in November to negotiate a new international agreement to limit the emissions of greenhouse gases. To which extent do you agree that Norway commits itself in such international agreements?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# km30: Norway committed through international agreements to cut emissions, even if China does not			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	As you may know, government leaders from all over the world met in November to negotiate a new international agreement to limit the emissions of greenhouse gases. To which extent do you agree that Norway commits itself in such international agreements, even if it means that Norway does this before other countries such as e.g. China?		
Concepts	Environmental changes, Climatic changes, Global warming, Attitudes		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# dt1_1: Authorities have a right to: indefinite detention			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Now we shall go on to another topic.		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... Keep individuals in custody as long as they want without a judicial process		

dt1_1: Authorities have a right to: indefinite detention

Concepts		Protection from terrorism, State security, Safety and security measures, Safety and security, Human rights	
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

dt1_2: Authorities have a right to: tapping phone calls

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	Now we shall go on to another topic.
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... Tap people's phone calls
Concepts	Protection from terrorism, State security, Safety and security measures, Safety and security, Human rights

Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

dt1_3: Authorities have a right to: randomly stop and search people on the street

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	Now we shall go on to another topic.
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... Randomly stop and search people on the street
Concepts	Protection from terrorism, State security, Safety and security measures, Safety and security, Human rights

Value	Label	Cases	Percentage
1	Strongly agree		

dt1_3: Authorities have a right to: randomly stop and search people on the street

Value	Label	Cases	Percentage
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

dt1_4: Authorities have a right to: arrest people without suspicion

Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	Now we shall go on to another topic.
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... Arrest people without specific suspicion
Concepts	Protection from terrorism, State security, Safety and security measures, Safety and security, Human rights

Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree

8	Dont wan't to respond		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# dt1k: Comment: Authorities have a right to [anonymised: Data withheld for the sake of anonymity]			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=0 /-] [Invalid=0 /-]		
Pre-question	[anonymised: Data withheld for the sake of anonymity]		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent... If you have any comments to the question, enter them here:		
Concepts	Protection from terrorism, State security, Safety and security measures, Safety and security, Human rights		
# dt2: Willing to accept that maintaining the safety of society must be at the cost of civil liberties			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How willing are you to accept that maintaining the safety of society must be at the cost of the freedom of individuals (such as privacy)?		
Concepts	Protection from terrorism, State security, Safety and security measures, Safety and security, Human rights		
Value	Label	Cases	Percentage
1	Very willing		
2	Willing		
3	Somewhat willing		
4	Not very willing		

# dt2: Willing to accept that maintaining the safety of society must be at the cost of civil liberties			
Value	Label	Cases	Percentage
5	Not willing at all		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# ran7: Randomizes independently from U			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=4750 /-] [Invalid=155 /-]		
Literal question	Randomizes into two groups and selects one of the following questions: DT3 and DT4		
# dt3_1: Trust in central government to handle: natural disasters			
Information	[Type= discrete] [Format=numeric] [Range= 1-98] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	To which extent do you have confidence or mistrust that central Norwegian authorities are capable of handling various forms of accidents and disasters? ... Natural disasters such as landslides, floods and hurricanes		
Concepts	Trust in government, Trust, Safety and security measures, Safety and security, Security services		
Value	Label	Cases	Percentage
1	Very high confidence		
2	High confidence		
3	Some confidence		
4	Neither confidence nor mistrust
